 **CENTAUR**[®]

C3000

Welcome to ASCO's Centaur[®] range of park shelters, a collection that can be best described as a work of art. Every piece is made with community and comfort at the forefront.

Centaur® Range

The Centaur® range is proudly presented by the ASCO Group.

The Centaur® range is comprised of timeless and classic park shelter designs that will not only enhance open spaces but transform them into outdoor entertainment settings. Every piece from the Centaur® park shelter range is designed with precision and built with the highest level of craftsmanship. This ensures the ultimate experience in comfort, durability, and aesthetics.

The Centaur® park shelter range are developed using sound and unique manufacturing processes to ensure structural integrity. The entire range consists of beautiful shelters that are able to withstand the rigours of climate, public interaction and activity.

Our structures and park furniture are built by our highly skilled team in Geelong, using locally sourced and sustainable materials, giving us the ability to offer customisable solutions to suit project needs.

The new series from the Centaur® range is available in three varieties.
